

## 5.6 Environmental Policy

Langtree Consulting is committed to the preservation of the environment and prioritises this to be of a high importance in the delivery of our services. The organisation's prime aim is to ensure a minimal impact on the environment when performing our works. Langtree Consulting has established policies, programmes and practices to reduce risk to the environment.

**To protect and improve the state of the environment in which we operate, we will:**

- Commit to the protection of the environment including prevention of pollution and other commitments.
- Integrate our environmental policies into all business activities.
- Comply with all relevant environmental legislation and regulations, and other requirements that are placed on us, or to which we voluntarily subscribe;
- Promote and encourage the adoption of these principals by suppliers and contractors acting on behalf of the organisation,
- Establish and pursue environmental objectives and targets
- Review printer usage monthly to ensure paper usage is under control
- Consult with our employees and engage with interested parties to improve our environmental management performance, and that of others operating in the civil and structural engineering industry.
- Maintain a certified Environmental Management System in accordance with the requirements of ISO 14001
- Ensure a commitment to comply with compliance obligations
- Ensure a commitment to continually to improve the environmental management system and environmental management performance.
